

## **“Free Parent Talk - Understanding Your Child’s Digital World – Learning Online & Setting Home Rules”**

A Chara,

Lots of requests from schools and parents to run another online Parent Talk. We have arranged this talk for this evening, Monday 19 June 2023 at 18:00. Our goal is to assist parents in understanding their child’s digital world, discuss particle rules, and understand safe learning environments. This, therefore by default, should decrease negative online issues being brought into your school.

*As always, we greatly appreciate your sharing this with your parents. Together We Get Better! XxX*
