

Autism "Social Skills" Training for Parents & Professionals

96% of attendees rated this Course as Excellent

'I learnt more in the first few hours than I did since I started researching over a year ago'

"Very informative, full of interaction, a great way to learn"

"No one ever explained autism to me like that"

This course runs Full day Sat 10-5pm (1 hour for lunch)

Attendees will learn over **35 activities** to teach kids who have language about and how to engage in:

-  Conversations
-  Teamwork
-  Joining In
-  Making friends
-  Non-verbal Communication

 All activities are practical, fun and easy to do in the school environment whether it's one to one or with a group.

 Gain an insight into Autistic Communication

 This course is designed by an autistic advocate with 20 years experience in communications and children.

AMAZING reviews

"the most enjoyable, educational course I have ever been to. I've been to numerous courses over the years including one day courses, short term courses and long term courses including a Masters and two other postgrads. I couldn't get over how informative this one was as well as how easy it is to put the ideas into use in the classroom setting. I want to thank Ciara for her great presentation and regular interactive lessons we enjoyed throughout the day. Highly recommend" Pam Larkin

"This course has super content and lots to offer teachers, SNA's and parents. Great tips on promoting inclusivity through fun activities. Delivered by an enthusiastic facilitator. I highly recommend it." Rebecca Ward

"With my sons diagnosis 7 months earlier I felt lost with all the information out there. I saw the Konfident Kidz course and gave it a try. Best decision ever. Evaleen and the other facilitators at the course were amazing and provided the information in a friendly, relatable and understandable way. I learnt more in 20 minutes there than in all my previous research. I am also happy to say that with putting the activities into play at home, my son is coping much better and we all know what to look out for and how to help him. Highly recommended." Jacky Lorimer

"A fantastic course with plenty of activities I can use in any setting in school. Well worth it and would highly recommend." Ann Dineen

"The facilitator was great, her enthusiasm and positivity are infectious. The time absolutely flew and I gained so much from it. I would recommend to any teacher or SNA looking for new ideas for their pupils or who want to know more about autism." Janine Cremin
